Microcement Brochure

About

Dusk & Dune is a premier luxury finishes company based in Dubai, specialising in the supply, installation, and training for exclusive finishes such as microcement, decorative paint, marble, quartz, and more.

At the intersection of nature's beauty and human craftsmanship lies **Dusk & Dune**. Inspired by the timeless elegance of the desert, where the setting sun meets vast, untouched landscapes, this name reflects the harmony of contrasts—light and shadow, day and night, smooth and textured.

Through our work, we bridge the elegance of European craftsmanship with Dubai's forward-thinking spirit, creating timeless finishes that endure.

At Dusk & Dune, we are specialists in premium microcement finishes, offering seamless, durable, and visually stunning solutions for residential and commercial spaces.

With a focus on craftsmanship and innovation, we use 100% Spanish products to create bespoke surfaces that elevate any interior or exterior design. Whether it's walls, floors, or furniture, our microcement is not only stylish but also practical, offering unparalleled versatility and longevity. From concept to completion, we deliver tailored results that reflect your vision with meticulous attention to detail.

Dusk & Dune has exclusive access to products from Topcret Ltd, one of the worlds leading microcement manufacturers, leading the way in innovation and sustainability.

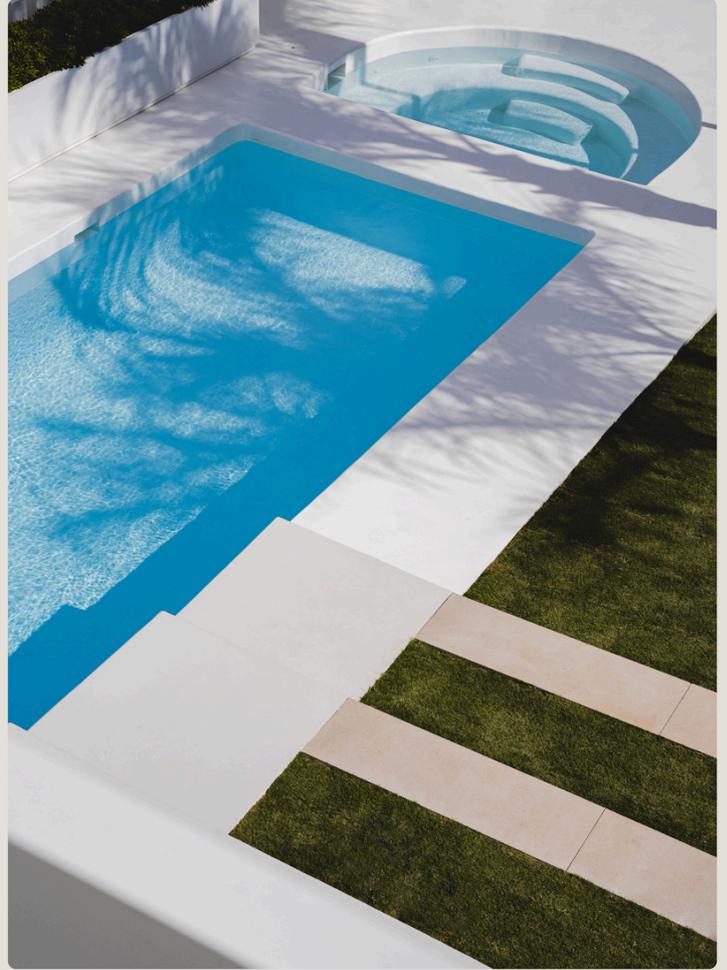

Why Dusk & Dune?

- **Eco Design:** Water based, non-toxic, and free of VOC's
THE MOST ADVANCED MICROCEMENT ON THE MARKET
- **Certified:** BAXAB® has achieved the highest rankings in LEED, BREEAM, and WELL certifications.
- **Built to last:** With a high resistance of 120 N/mm²*, it is designed for intensive and prolonged use, making it ideal for not only residential spaces but also commercial stores, public areas, and other high-traffic zones.
- **Totally waterproof:** Perfect for outdoor and indoor applications, including kitchens, bathrooms, and any wet areas.
- **Versatile finishes:** Available in a wide range of colours and textures to suit every design need.
- **Ideal for renovations:** Can be applied without removing existing materials.
- **Multi-surface compatibility:** Installs easily over cement, metal, plastic, tiles, and ceramic.
- *3x stronger than conventional microcements.
