BESPOKE COLOURS

Microcement is already a one-of-a-kind finish, but with our bespoke colour service, you can make it even more personal. Whether you provide a RAL, NCS, or Pantone code, a paint swatch, or even a physical sample, we can recreate it with 95% accuracy, ensuring seamless integration with your space.

Our expert blending process combines high-quality mineral pigments and binders, delivering a custom hue with depth and movement that interacts beautifully with light and texture. Unlike standard finishes, your bespoke shade enhances the natural character of microcement, making each surface uniquely yours.

From soft neutrals to bold statement tones, our tailored approach transforms your vision into reality. With Dusk & Dune, your colour isn't just matched—it's mastered.
